PROFESSIONAL SUMMARY A highly motivated Computer Science student and Offensive Security enthusiast with a solid foundation in web exploitation, digital forensics, and network security. Guided by the principle "Hunt Logic, Not Luck," focusing on structured methodologies and root-cause analysis rather than automated guessing. Consistently honing practical skills through active participation in regional CTFs and global platforms (HackTheBox & TryHackMe). Seeking an opportunity to contribute to a collaborative security team, assist in vulnerability assessments, and continue growing as a cybersecurity professional.

CORE SKILLS & ARSENAL

- **Offensive Security:** Web Application Penetration Testing, Vulnerability Assessment, Exploit Development basics.
- **Web & Network Tools:** Burp Suite, OWASP ZAP, SQLmap, cURL.
- **PWN & Scripting:** GDB, Pwntools, Python Scripting, Bash/Shell.
- **Digital Forensics (DFIR):** Volatility, Autopsy, FTK Imager, Wireshark/Tshark, EricZimmerman (EZ) Tools.
- **Languages:** Indonesian (Native), English (Professional Working Proficiency).

ACTIVE PLATFORM ACHIEVEMENTS (CONTINUOUS LEARNING)

- **HackTheBox (HTB):** Achieved **Pro Hacker** rank (Level 58) and Holo Tier #911 leaderboard status. Maintained a 22-week active streak, demonstrating consistent dedication to practical exploitation.
- **TryHackMe (THM):** Reached **Top 1% Global Rank** with over 300+ completed rooms and 40 earned badges.

CAPTURE THE FLAG (CTF) EXPERIENCE Team MEOWTAKU | CTF Player & Cyber Security Learner | 2026 - Present

- **HTB Holmes CTF - The Reichenbach Directive (Sep 2026):** Contributed to the team's success by securing 30 flags and 2,850 points, finishing 601st out of 5,637 global teams.
- **Cyber Breaker Development (CBD) Regional CTF (May 2026):** Secured 7th place out of 306 competing teams in the highly competitive Jawa Regional. Collaborated to solve challenges under strict time constraints.

CERTIFICATIONS & TRAINING

- **Tech-Rookie Bootcamp & Challenge:** "The Future Innovators", UNSIA Bali Festival (Apr 2026).
- **TryHackMe Security Paths (150+ Hours Completed):**
 - Advent of Cyber 2025 Participant (Dec 2025)
 - SOC Level 2 & SOC Level 1 (Aug - Oct 2025)
 - Cyber Security 101 & Pre Security (Aug 2025)
- **ITBox by Course-Net:** Cyber Security Course - Intermediate & Basic Level (May - Jun 2025).

EDUCATION

Asia Cyber University | Indonesia *Bachelor of Computer Science* | Expected Graduation: 2028

- Built a strong academic foundation in software engineering, operating systems, and network architectures.
- Advocate for "Secure by Design" principles, understanding how systems are built before attempting to identify their vulnerabilities.

Vocational High School at SMK Plus Pelita Nusantara | Indonesia Majoring *Software Engineering* | Graduation: 2021 - 2024

- Built a strong academic foundation in software engineering, operating systems, and network architectures.
- Advocate for "Secure by Design" principles, understanding how systems are built before attempting to identify their vulnerabilities.

SECURE COMMUNICATION

- **PGP Fingerprint:** F50C 1DB1 7A21 ABCA 3804 EAA8 4D26 330A 3C94 B842
- *Full public key available on my portfolio website for secure vulnerability disclosures and sensitive communications.*
